§ 160.1 *Statutory authority.* Section 15 of the act of June 28, 1934 (48 Stat. 1275) as amended, authorizes the Secretary of the Interior, to lease for grazing purposes, vacant, unappropriated and unreserved public lands outside of established grazing districts in the continental United States.

§ 160.2 *Definitions.* (a) "Secretary" means Secretary of the Interior.

(b) "Director" means Director, Bureau of Land Management.

(c) "The act" means section 15 of the act of June 28, 1934 (48 Stat. 1275) as amended by section 5 of the act of June 26, 1936 (49 Stat. 1978, 43 U. S. C. 315m)

§ 160.3 *Classes of applicants; preference rights.* In general, the act, as amended, provides for the issuance of grazing leases to three classes of applicants, as follows:

(a) Leases where no preference-right applicant is involved.

(b) Preference-right leases to applicants who are owners, homesteaders, lessees, or other lawful occupants of contiguous lands to the extent necessary to permit the proper use of such contiguous lands.

(c) Preference-right leases to applicants who are the owners, homesteaders, lessees, or other lawful occupants of lands contiguous to or cornering on an isolated or disconnected tract embracing 760 acres or less,¹ for the whole of such tract, upon the terms and conditions prescribed by the Secretary, provided the preference right is asserted during a period of 90 days after such tract is offered for lease.²

§ 160.4 *Filing of applications; copies necessary.* An application for lease should be submitted on Form 4-721 and filed in the district land office for the district in which the lands applied for are situated, except that in the states in which there are no district land offices, the application should be filed with the Director. The application must be filed in triplicate, except where it embraces

¹ Where the lands applied for include the even-numbered sections within the limits of a railroad grant, even though in the aggregate such lands exceed 760 acres, each such section will be considered as an isolated or disconnected tract within the meaning of this provision.

² By Departmental notice of July 31, 1937, all vacant, unreserved and unappropriated public lands, exclusive of Alaska, not included in an established grazing district, were then offered for lease under section 15; all lands not then subject to lease under section 15 because of their appropriation or reservation, were offered for lease as of the date any such lands first became subject to lease.

lands within the jurisdiction of more than one district land office, in which event it must be furnished in quadruplicate and may be filed in either office. The application need not be under oath but must be signed by the applicant.³

§ 160.5 *Qualifications of applicants.* Any person who is a citizen of the United States or who has declared his intention to become a citizen and whose declaration is still valid, or any group or association composed of such persons, or any corporation organized under the laws of the United States, or of any State or Territory thereof authorized to conduct business in the State in which the lands involved are situated, may file an application for a lease.

§ 160.6 *No right conferred by application, prior to lease.* The filing of an application will not segregate the land applied for from application by other persons for a grazing lease or from other disposition under the public-land laws. As the issuance of a lease is discretionary, the filing of an application for a lease will not in any way create any right in the applicant to a lease, or to the use of the lands applied for, pending the issuance of a lease. Any such unauthorized use constitutes a trespass.

§ 160.7 *Filing fees.* Every applicant for a lease must pay to the Manager, at the time of filing an application, a fee of \$5 if his lease application is for 1,000 acres or less, and an additional \$5 for each additional 1,000 acres or fractional part thereof, which fee will be carried as unearned pending action on the application. If the application is rejected, the fee will be returned. If a lease, based on the application, is offered the applicant, and he refuses to accept the same, the fee will be retained as a service charge.

§ 160.8 *Protests.* Protests against the approval of an application for a lease should be in duplicate, contain a complete disclosure of all facts upon which the protest is based, and describe the lands involved in such protest, and should be accompanied by evidence of service of a copy of the protest on the applicant. If the protestant desires to lease all or part of the land embraced in the application against which the protest is filed, the protest should also be accompanied by an application for a grazing lease.

§ 160.9 *Filing of petitions for renewals.* A lessee who desires to renew a lease should file in triplicate approximately 90 days prior to the expiration of the lease a petition for renewal of the lease on Form 4-725. The petition may include a request for the consolidation of other outstanding grazing leases held by the lessee. No filing fee will be required in connection with a petition for renewal. The filing of a petition for renewal does not confer on the lessee any preference right to a renewal. The timely filing of a petition will, however, authorize the exclusive grazing use of the lands by the lessee

³ Title 18, U. S. C. sec. 80, makes it a crime for any person knowingly or willfully to submit or cause to be submitted to any agency of the United States any false or fraudulent statement as to any matter within its jurisdiction.

in accordance with the terms of the prior lease pending final action on the petition.

§ 160.10 *Leases of withdrawn or reserved lands.* Leases may be issued for public lands withdrawn for resurvey, or withdrawn and reserved in aid of legislation, or for power sites, classification or other public purposes,⁴ if the use of the land for grazing is not inconsistent with the purposes of the withdrawal. Lands included in stock driveway and public water reserve withdrawals may be leased in accordance with the regulations, 43 CFR 295.7 (c). Any lease issued covering withdrawn lands must contain the stipulations which have been prescribed by the Director of the Bureau of Land Management for the protection and use of the land for the purpose for which it was withdrawn or reserved.

§ 160.11 *Offer and issuance of lease; disposition of protests and conflicting applications.* The Director, after consideration of the field report as to the area, term, and rental to be included in the proposed lease, shall forward it, in triplicate, on Form 4-722a, to the district land office for execution by the applicant. After execution, the applicant will return the proposed lease forms, together with the amount of rental due under § 160.14 to the district land office. If all is found to be regular, a lease will be issued by the Director after final action has been taken on any protests or conflicting applications which may have been filed.

Where it is determined that more than one applicant should receive a lease and a division of the lands is necessary, the conflicting applicants will be afforded an opportunity to agree to the division of such lands at the time of field investigation. If an acceptable adjustment cannot be made by the parties in interest, the matter will be determined by the Director in the light of all available information, including the field report.

After the proposed lease forms have been transmitted to an applicant, and if such lease is executed by him, any application filed subsequent to such transmittal will be rejected as to any lands included in that proposed lease.

§ 160.12 *Reduction in leased area.* The leased area may be reduced if it is excessive for the number of stock owned by the lessee, or if it is determined that such area is required for the protection of camping places, sources of water supply to communities, stock driveways, roads and trails, town sites, mining claims, or for feeding grounds near villages for the use of draft animals or near the slaughtering or shipping points for use of stock to be marketed. In that event, a proportionate reduction will be made in the annual rental charges.

§ 160.13 *Leased lands subject to classification and disposition; compensation*

⁴ Certain lands withdrawn for reclamation purposes are, pursuant to the cooperative agreement of February 28, 1945, between the Bureau of Reclamation and the Bureau of Land Management, leased in accordance with the principles of section 15 leases, under authority of subsection (I) of section 4, act of December 5, 1924 (43 Stat. 703, 43 U. S. C. 501).

to lessee for improvements and damages. Lands embraced in a grazing lease are subject to classification and disposition under the provisions of section 7 of the act of June 28, 1934 (48 Stat. 1272) as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. 315f) *Provided*, That before any application for such classification and disposition is allowed, evidence is furnished that the applicant has agreed to compensate the lessee for any grazing improvements placed on the lands under the authority of the lease, and for any injury caused to the lessee's grazing operations by reason of the loss of the leased lands from his leasehold. All such agreements, to be effective, must be approved by the Director. If the interested parties are unable to reach an agreement as to the amount of such compensation, the amount shall be fixed by the Director. The failure of the applicant to pay the lessee in accordance with the agreement shall be just cause for cancellation of any rights or interests in the lands acquired by the applicant by reason of the allowance of his application.

Where part of the lands embraced in a grazing lease are disposed of as provided by this section, the subsequent annual rental charges will be reduced proportionately to reflect the loss of the lands from the leasehold.

Any agency of the Federal Government which needs lands embraced in a grazing lease for a governmental use other than one described in § 160.12, and requests a permit, withdrawal, reservation, lease or patent, shall be considered an applicant within the meaning of this section.

§ 160.14 *Rental.* Each lessee shall pay to the district land office specified in the lease, in accordance with the terms of the lease, such annual rental as may be determined to be a fair compensation for the grazing use of the leased land. In no lease, however, will the rental charge be fixed at less than \$1 per annum. The rental may be adjusted at the end of the third year and at the end of each three-year period thereafter.

§ 160.15 *Term of lease.* A lease may be issued for a period of not more than 10 years. Renewals may be for periods of not more than 10 years, upon such terms and conditions as may then be prescribed.

§ 160.16 *Construction and removal of improvements.* After the issuance of a lease, the lessee may fence the lands or any part thereof, develop water by wells, tanks, water holes, or otherwise, and make or erect other improvements for grazing and stock-raising purposes so long as such improvements do not impair the value of the lands. The lessee will be required to comply with the provisions of the laws of the State in which the leased lands are located with respect to the cost and maintenance of partition fences.

Upon the expiration of a lease or its earlier termination, the Director may, in his discretion and upon a written petition filed by the lessee within 30 days from date of such expiration or termination, require a proposed subsequent lessee, prior to the execution of a new

lease, to agree to compensate the lessee for any grazing improvements of a permanent nature that may have been placed upon the leased lands under authority of section 15 leases. The amount of such compensation shall be determined in accordance with the procedure set forth in § 160.13. The failure of the subsequent lessee to pay the lessee in accordance with such agreement shall be just cause for cancellation of the subsequent lessee's lease.

The lessee will be allowed three months from the date of expiration or termination of the lease within which to remove such improvements as are not disposed of in the manner set forth above; if not removed or otherwise disposed of within the said period, such improvements shall become the property of the United States.

§ 160.17 *Cancellation of lease.* If the lessee shall fail to comply with any of the provisions of the regulations in this part or of the lease, and such default shall continue for 60 days after service of written notice thereof, the lease may be terminated and canceled by the Director.

§ 160.18 *Inspection of leased premises.* The land described in the lease shall be subject to inspection at all reasonable times by duly authorized representatives of the Department of the Interior, and other Federal agents, as well as game wardens, shall be permitted access to the lands in connection with necessary Government business.

§ 160.19 *Assignment of lease; subleases of leased land.* Proposed assignments of a lease, and proposed subleases of the leased lands, in whole or in part, must be filed in the district land office and may be approved by the Director. The assignments and subleases must contain all of the terms and conditions agreed upon by the parties thereto; must be accompanied by the same showing by the assignee or sublessee as is required of applicants for a lease; and must be supported by a showing that the assignee or sublessee agrees to be bound by the provisions of the lease. No assignment or sublease will be recognized unless and until approved.

§ 160.20 *Leases pledged as security for loans.* (a) A lease may be pledged as security for a loan of \$500 or more from a lending agency when the loan is made for the purpose of furthering the lessee's livestock operations. Before a loan is made, the lending agency may ascertain from the district land office the status of the grazing lease and other pertinent information concerning the lease.

(b) Upon request of the borrower-lessee, where such extension will be in accordance with applicable law and not contrary to the public interest, the lease will be extended for a period of ten years from the date of the loan subject to such terms and conditions as are then provided by the regulations in this part.

(c) In case the property of the lessee which was the basis for the granting of a preference right, is acquired by the lending agency through foreclosure or otherwise, such agency or its tenants on the property, if qualified, or any person who purchases the property from such

agency, if qualified, on application, shall be recognized in lieu of the lessee. If in making a sale the lending agency takes back a mortgage on the property, the agency shall be entitled to the same consideration as in the case of the original loan.

(d) Where a lending agency files notice that it has made a loan and has accepted a grazing lease as security therefor, in conformity with the provisions of this section, such agency will be advised of any action taken affecting the lease.

§ 160.21 *Appeals*. An appeal may be taken from any decision of the Director to the Secretary, pursuant to the rules of practice, 43 CFR, Part 221.

COMMISSION,
[SEAL] T. J. SLOWIE,

1. Section 12.64 of the rules governing Amateur Radio Service is amended to read as follows:

§ 12.64 *Location of station.* (a) Only one fixed location will be authorized and designated in the license for each amateur station. Unless remote control of the transmitting apparatus is authorized, such apparatus shall be operated only by a duly licensed amateur operator present at the location of such apparatus.

(b) Authority for operation of an amateur station with the licensed operator on duty at a specific remote control point in lieu of the transmitter location may be granted upon filing an application for a modified station license on FCC Form No. 610 or FCC Form No. 602, as appropriate, and, *Provided*, That the following conditions are met:

(1) The remote control point as well as the remotely-controlled transmitter, shall be located on premises controlled by the licensee.

(6) In the event that operation of an amateur transmitter from a remote control point by radio is desired, an application for a modified station license on FCC Form No. 610 or FCC Form No. 602, as appropriate, should be submitted with a letter requesting authority to operate in such a manner stating that the controlling transmitter at the remote location will operate within amateur frequency bands 420 megacycles or higher and that there will be full compliance with subparagraphs (1) through (5) of this paragraph. Supplemental statements and diagrams should accompany the application and show how radio remote control will be accomplished and what means will be employed to prevent unauthorized operation of the transmitter by signals other than those from the controlling unit. There should be included complete data on control channels, relays and functions of each, directional antenna design for the transmitter and receiver in the control circuit, and means employed for turning on and off the main transmitter from the remote control location.

(c) An amateur transmitter may be operated from a remote control point in lieu of the transmitter location without special authorization by the Commission when there is direct mechanical control or direct electrical control by wired connections of the transmitter from a point located in the same or closely adjoining building or tower, provided there is full compliance with the conditions set forth in subparagraphs (1) through (5) of paragraph (b) of this section.

2. A new § 12.7 is added to the rules governing amateur radio service to read as follows:

§ 12.7 *Remote control.* The term "remote control" as applied to the Amateur Radio Service, means control of transmitting equipment of an amateur station from an operating position other than one at which the transmitter is in view and immediately accessible; except that, direct mechanical control or direct electrical control by wired connections of an amateur transmitter from a point located on board any aircraft, vessel or vehicle on which such transmitter is located shall not be considered remote control within the meaning of this definition.

2. *Limit of acreage for which entry may be made or water secured.* The area of public land constituting each farm unit represents the acreage which, in the opinion of the Secretary of the Interior, may be reasonably required for the support of a family upon such land, and is fixed at the amount shown upon the farm unit plats referred to above.

3. *Preference rights of veterans.*—(a) *Nature of preference.* Pursuant to the provisions of the act of September 27, 1944 (58 Stat. 747), as amended by the acts of June 25, 1946 (Public Law 440, 79th Congress, 2d Session) and May 31, 1947 (Public Law 82, 80th Congress, 1st Session), for a period of 90 days from the opening of these lands to entry, or until January 20, 1948, the lands described in paragraph 1 above will be opened to entry to persons who at the time of making application fall within one of the following classes:

(1) Persons, including persons under 21 years of age, who have served in the Army, Navy, Marine Corps, or Coast Guard of the United States for a period of at least 90 days at any time on or after September 16, 1940, and prior to the termination of the present war, and are honorably discharged therefrom.

(2) Persons, including persons under 21 years of age, who have served in said Army, Navy, Marine Corps or Coast Guard during such period, regardless of length of service, and are discharged on account of wounds received or disability incurred during such period in the line of duty, or, subsequent to a regular discharge, are furnished hospitalization or awarded compensation by the government on account of such wounds or disability.

(3) The spouse of any person in either of the above classes (1) and (2), provided such spouse has the consent of such per-

son to exercise his or her preference right under said act.

(4) The surviving spouse of any person in either of the above classes (1) and (2) or in the case of the death or marriage of such spouse, the minor child or children of such person by a guardian duly appointed and officially accredited at the Department of the Interior.

(5) The surviving spouse of any person whose death has resulted from wounds received or disability incurred in line of duty while serving in said Army, Navy, Marine Corps or Coast Guard during the above-mentioned period, or in the case of the death or marriage of such spouse, the minor child or children of such person by a guardian duly appointed and officially accredited at the Department of the Interior: *Provided, however* That persons claiming such preferences must be qualified to make entry under the homestead laws and also possess the qualifications as to industry experience, character, capital, and physical fitness required of all entrymen and entrywomen under this notice.

(b) *Definition of honorable discharge.* An honorable discharge within the meaning of the act of September 27, 1944, as amended, shall mean:

(1) Separation of the veteran from the service by means of an honorable discharge or a discharge under honorable conditions.

(2) Transfer of the veteran with honorable service from such service to a reserve or retired status prior to the termination of the war, or

(3) Ending of the period of such veteran's war service by reason of the termination of the war, even though the veteran remains in the military or naval service of the United States.

(c) *Submission of proof of veterans' status.* All applicants for farm units who claim veterans' preference must attach to their applications a photostatic, certified, or authenticated copy of an official document of the respective branch of the service involved which clearly indicates an honorable discharge or transfer to a reserve or retired status or which constitutes evidence of other facts on which the claim for preference is based. Where the preference is claimed by the surviving spouse, or on behalf of the minor child or children, of a deceased veteran, proof of such relationship, of his military service, and of his death must be attached to the application. Where the preference is claimed by the spouse of a living veteran, proof of such relationship, the written consent of such veteran, and proof of his military service as required above must be attached to the application.

4. *Qualifications required by the Reclamation Law.* Pursuant to the provisions of subsection C; section 4, of the act of December 5, 1924 (43 Stat. 702, 43 U. S. C. 433) the following are established as minimum qualifications which, in the opinion of the local examining board, are necessary to insure the success of entrymen or entrywomen on reclamation farm units included under this notice. Applicants must meet these qualifications, as determined by the examining board, in order to be considered for entry. Failure to meet them in any single re-

spect will be sufficient cause for rejection of an application. No credit will be given for qualifications in excess of the minimum required. The minimum qualifications are as follows:

(a) *Character and industry.* The applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct, and a bona fide intent to engage in farming as an occupation. As part of each application, the applicant shall furnish three separate signed statements regarding the character and industry of the applicant. These statements may be prepared and signed by an ordained minister, any commanding officer under whom the applicant served, a teacher or administrative official of any recognized high school or college, present or previous employer or any comparable individual or official, not a relative, who is personally acquainted with the applicant. The individuals signing these statements may be those listed in paragraph 17 of the farm application blank, referred to in paragraph 6 of this notice.

(b) *Health.* The applicant must be in such physical condition as will enable him to engage in normal farm labor. Any person who is physically handicapped or afflicted with any condition which makes such ability questionable must attach to his application the detailed statement of an examining physician which defines the limitation upon such ability and its causes.

(c) *Farm experience.* (1) Farm experience shall be of such a nature as in the judgment of the examining board will qualify the applicant to undertake the development and operation of an irrigated farm by modern methods. The applicant must have had a minimum of two years' full-time farm experience after attaining the age of 15 years. Two years of study in agricultural courses in an accredited agricultural college or two years of responsible technical work in agriculture, if deemed by the examining board to be work which would contribute toward successful farm operation, may be substituted for one year of full-time experience: *Provided*, That no more than one year's experience may be credited from such sources. A farm youth having attained the age of 15, who actually resided and worked on a farm while attending school, may credit such part-time experience as equal to 50 percent of full-time experience. All farm experience must have been obtained since October 1, 1932. No advantage will accrue from farming experience on irrigated land.

(2) Applicants must furnish three separate statements each signed either by a Vocational Agricultural teacher, County Agent, Farmers Home Administration County Supervisor, A. A. County Chairman, an officer of any local farm organization, or by some other responsible person who has personal knowledge of the applicant's farm experience or has verified it to his satisfaction certifying to the farm experience claimed in paragraph 7 of the farm application blank. Forms to be used by these references accompany each farm application blank.

(3) Women applicants must describe fully the farm activities in which they

have participated and the relation of any agricultural courses they have taken to farm operation and management.

(d) *Capital.* Each applicant must possess at least \$2,000, consisting of cash or assets readily convertible into cash, such as United States Savings Bonds, or assets useful in the operation of a farm, such as livestock, farm machinery and equipment. In addition, each applicant shall furnish, in the space provided in paragraph 11 of the farm application blank, a financial statement listing all of his assets and all of his liabilities, showing a net worth of at least \$2,000. Possession of the minimum net worth requirement of at least \$2,000 must be corroborated by a statement of an official of a bank, or other responsible and reputable private or public credit agency. This corroborative statement may be a separate attachment, or may be inserted at the bottom of page 3 of the farm application blank.

(e) *Restriction regarding lands presently owned on any Federal reclamation projects.* In addition, in order to qualify for entry on project lands, applicants must not hold or own, within any Federal reclamation project, irrigable land for which construction charges payable to the United States have not been fully paid. Proofs of conformity with this requirement need not be furnished, but a check of project lands will be made to determine eligibility of applicants before awards of farm units are made.

5. *Principal qualifications required by homestead laws.* The homestead laws require that an entryman or entrywoman:

(a) Must be a citizen of the United States or have declared an intention to become a citizen of the United States.

(b) Must not have exhausted the right to make homestead entry on public land.

(c) Must not own more than 160 acres of land in the United States.

(d) Entrywomen who are married must be heads of families; this requirement of the homestead law was not affected by the act of September 27, 1944 (58 Stat. 747) as amended. Entrymen and unmarried entrywomen must be 21 years of age or the head of a family, except that such minimum age requirement is not applicable to entrymen or unmarried entrywomen who have served in the Army, Navy, Marine Corps or Coast Guard of the United States for a period of at least 90 days at any time on or after September 16, 1940, and prior to the termination of the present war and are honorably discharged. Any applicant who is required to be the head of a family must submit proof of such status with his or her application. Complete information concerning qualifications for homesteading may be obtained from District Land Offices or from the Bureau of Land Management, Washington 25, D. C.

6. *When, where, and how to apply for a farm unit—(a) Application blanks.* Any person desiring to acquire one of the public land units described in this notice must fill out the attached farm application blank.¹ Additional application blanks may be obtained from the District

¹ Not filed with the Division of the Federal Register.

Manager, Bureau of Reclamation, P. O. Box 312 (Building 61, Municipal Airport) Klamath Falls, Oregon; Regional Director, Bureau of Reclamation, P. O. Box 2511, Sacramento 10, California, or the Commissioner, Bureau of Reclamation, Washington 25, D. C. Each question on the farm application blank must be answered completely, with the exception that preference choice of farm units need not be listed in the space provided on page 1.

(b) *Filing of applications and proofs.* An application for a farm unit listed in paragraph 1 of this notice must be filed with the District Manager, Bureau of Reclamation, P. O. Box 312 (Building 61, Municipal Airport) Klamath Falls, Oregon, in person or by mail. No advantage will accrue to an applicant who presents his or her application in person. Such an application must be accompanied by:

(1) Proof of veteran's status if veterans' preference is claimed; see above, paragraph 3 (c)

(2) Three statements as to character and industry—see above, paragraph 4 (a)

(3) Statement of examining physician, in case of disability; see above, paragraph 4 (b)

(4) Three statements corroborating the farm experience claim; see above, paragraph 4 (c) (2)

(5) Corroboration of capital assets; see above, paragraph 4 (d)

(6) Proof of status as head of a family if applicant is a married woman veteran, or a non-veteran under the age of 21, see above paragraph 5 (d)

(c) *Priority of applications.* All applications filed for the public land farm units listed in this notice will be classified for priority purposes as follows and considered in the following order:

(1) *First Priority Group.* All applications filed prior to 2:00 p. m., January 20, 1948, which are accompanied by proof sufficient in the opinion of the board to establish eligibility for veterans' preference. All such applications will be treated as simultaneously filed.

(2) *Second Priority Group.* All applications filed prior to 2:00 p. m., January 20, 1948, from applicants without veterans' preference or which are not accompanied by proof sufficient in the opinion of the board to establish eligibility for veterans' preference. All such applications will be treated as simultaneously filed.

(3) *Final Priority Group.* All applications filed after 2:00 p. m., January 20, 1948, whether or not accompanied by proof relative to veterans' preference. Such applications will be considered in the order in which they are filed, if any farm units become available for assignment to applicants within this group.

(d) *Applications cannot be returned.* Each application submitted, including substantiating and supporting data, becomes a part of the permanent records of the Bureau of Reclamation and cannot be returned to the applicant.

7. *Selection of qualified applicants—*

(a) *Examining board.* An examining board of three members has been approved by the Commissioner of Reclamation to consider the fitness of each appli-

cant to undertake the development and operation of a farm on the Klamath Project. Careful investigations will be made to verify the statements and representations made by applicants in order to determine their qualifications as prescribed in this notice.

(b) *Basis of examination.* The examining board will determine the eligibility for the award of a reclamation farm unit under subsection 4C of the act of December 5, 1924. As stated above in paragraph 4, applicants will be judged on the basis of character, industry, farming experience, and capital. No applicant will be considered eligible who does not qualify in all respects, or who does not, in the opinion of the board, possess the health and vigor to engage in farm work. Any falsification or fraudulent misrepresentation shall constitute ground for the disqualification of the applicant, the rejection of his application, the cancellation of his award, and/or the cancellation of his entry.

(c) *Procedure—(1) Preliminary examination.* If an applicant fails to make a prima facie case, that is, if an examination of his application discloses that he is not qualified in respect to the requirements prescribed herein, the application shall be rejected and the applicant notified by the board of such rejection and the reasons therefor, and of his right to appeal in writing to the Regional Director, Region II, Bureau of Reclamation. Such written appeals must be filed within ten (10) days from the receipt of such notice with the District Manager, Bureau of Reclamation, P. O. Box 312 (Building 61, Municipal Airport), Klamath Falls, Oregon, who will forward them promptly to the Regional Director. If an appeal is decided by the Regional Director in favor of the applicant, the application will be referred to the examining board for inclusion in the drawing. All decisions on appeals will be based exclusively on information obtained prior to rejection of the application by the examining board. The Regional Director's decision on all appeals shall be final.

(2) *Selection of applicants.* After the expiration of the appeal periods fixed by the above-mentioned notices, and in the absence of any pending appeals, the examining board shall conduct a public drawing from the names of the remaining applicants in the First Priority Group, as defined in paragraph 6 (c). Qualified applicants need not be present at the drawing in order to participate therein. A total of 88 names (twice the number of public land farm units to be awarded) shall be drawn and numbered consecutively. The applicants whose names are so drawn may be closely investigated by the board to determine the authenticity and reliability of the information and proofs offered by them. This investigation may include a personal appearance before the board, if the board determines that this is necessary; should any applicant fail to comply with the board's request for a personal appearance, such failure shall constitute ground for rejection of his application. Any applicant, whose application is rejected by the board as a result of such investigation, shall be

given notice of such rejection, setting forth the reasons therefor and advising the applicant of his right to appeal in writing to the Regional Director. The provisions of paragraph 7 (c) (1) relative to appeals shall be applicable to any such appeal, except that where any such appeal is decided by the Regional Director in favor of the applicant such applicant shall retain the number assigned to him at the time of the drawing.

After the expiration of all appeal periods fixed by notices given as above-provided, and in the absence of any pending appeals, those applicants whose applications remain unrejected and who hold the 44 lowest numbers assigned at the drawing, exclusive of those numbers assigned to rejected applications, shall be selected by the examining board as the successful applicants. The balance of the 88 applicants whose applications remain unrejected shall be selected by the board as alternates. The board shall thereupon notify each successful applicant and each alternate of his selection and of his respective standing. The board shall thereupon notify all other remaining applicants that farm units will not become available to them, except pursuant to subparagraph 7 (c) (3) (b) below.

(3) *Awarding of farm units.* (a) Upon the completion of any action which may become necessary by reason of any notices given, the examining board shall award farm units in accordance with order of selection numbers assigned such units to the above-mentioned 44 successful applicants in the order in which their names are drawn without regard to preferences indicated by applicants for specific farm units or otherwise. Each applicant to whom a farm unit has been awarded will be notified of that fact by the board. Each such applicant shall have no right of entry for any other farm unit. If any such applicants fail to make application for homestead entry in conformity with the provisions of paragraph 9 below or to comply with the other applicable requirements set out in said paragraph, the farm units awarded to them shall be awarded to alternates in the order in which their names were drawn and subject to the same conditions and requirements as the original awards. The alternate with the lowest number as assigned under the provisions of paragraph 7 (c) (2) shall take the place of the lowest numbered applicant among the first 44 who fails to make application for homestead entry or disqualifies by failure to comply with the other requirements set forth in paragraph 9 below; and the alternate with the second lowest number shall take the place of the second lowest numbered applicant who fails to make application for homestead entry or comply with the other requirements. The same procedure shall continue to apply until all farm units have been awarded.

(b) The foregoing procedure shall continue until all farm units are finally disposed of to unrejected applicants in the First Priority Group whose names have been drawn and whose applications have been closely investigated as provided herein. If units still remain to be

awarded after all applications in the First Priority Group have been processed, the foregoing procedure shall be applied in the processing of applications in the Second Priority Group. If units still remain to be awarded after all applications in the Second Priority Group have been processed, the foregoing procedure shall be applied in the processing of applications in the Final Priority Group, except that the board shall consider such applications in the order in which they are filed in lieu of conducting a drawing with reference thereto.

(4) *Delivery of notices.* All notices given to applicants pursuant to the provisions of paragraph 7 (c) and subparagraphs thereunder shall be in writing and shall be delivered to the respective applicants personally or sent to them by registered mail with return receipt requested.

8. *Warning against unlawful settlement.* No person shall be permitted to gain or exercise any right under any settlement or occupation of any of the public lands covered by this notice except under the terms and conditions prescribed by this notice.

9. *Payment of charges and filing of homestead applications.* After the 44 successful applicants have been selected, they shall be so notified by the examining board, and with such notice the examining board shall enclose a water rental application for the farm unit awarded which must be executed by the applicant and returned to the District Manager, Bureau of Reclamation, P. O. Box 312 (Building 61, Municipal Airport) Klamath Falls, Oregon, within ten (10) days from receipt thereof, together with the payment of the minimum water rental charge as specified in paragraph 10 (a) hereof. Upon receipt of water rental application and payment of the amount due thereon, the examining board shall furnish each applicant a certificate stating that his qualifications to enter public lands as required by subsection C of section 4 of the act of December 5, 1924 (43 Stat. 702) have been passed upon and approved by the examining board. Such certificate must be attached by the applicant to his homestead application which application must be filed at the District Land Office of the Bureau of Land Management, Sacramento, California. Such homestead application must be filed within thirty (30) days from the date of the receipt by the applicant of said certificate. Failure to pay the water rental charge or to make application for homestead entry within the periods specified herein will render the application subject to rejection, in which event the examining board will select the next listed alternate.

10. *Charges payable by all water users.* The Reclamation Law provides that except during a "development period" fixed by the Secretary of the Interior water may not be delivered for the irrigation of lands until an organization, satisfactory in form and powers to the Secretary, has entered into a contract with the United States providing for the repayment of the project construction costs which are allocated to such irrigated lands. Pursuant to section 2 (j) and 7

(b) of the Reclamation Project Act of 1939, (53 Stat. 1187) lands described in paragraph 1 of this public notice are hereby designated a development unit. The maximum development period for the lands so designated is fixed at a period of four years from and including the first year in which water is delivered; *Provided*, That such period may be reduced by supplemental notice should the Secretary determine that the full four-year period is not reasonably necessary. Before the end of the development period, all lands described in said paragraph 1, must, therefore, be included within an organization of the type described and such organization must execute a contract covering the repayment of the construction costs allocated to such lands:

(a) *Charges payable before execution of the repayment contract.* (1) The minimum water rental charge for the irrigation season of 1948 and thereafter until further notice shall be three dollars (\$3.00) per acre for each irrigable acre of land in the farm unit, whether water is used or not, which will entitle the entryman to two and one half (2½) acre-feet of water per irrigable acre. Payment of this charge for the irrigation season of 1948 shall be made at the time of filing water rental applications.

(2) Additional water will be furnished during the 1948 irrigation season and thereafter until further notice up to a limit of three and one half (3½) acre-feet per irrigable acre at the rate of fifty cents (\$0.50) per acre-foot and all further quantities at seventy-five cents (\$0.75) per acre-foot. Charges for the additional water are to be paid on or before December 1 of the year in which used. No water shall be delivered to the water user in subsequent years until all such charges have been paid in full.

(3) In the event any applicant does not receive notice of the award of a farm unit until after June 15, 1948, payment shall be a minimum charge of three dollars (\$3.00) per acre, which payment shall apply as a credit on the minimum charge for the following irrigation season.

(4) The foregoing charges are subject to all provisions of the Federal Reclamation Law relative to collections and penalties for delinquencies. The charges will be paid at the office of the Bureau of Reclamation, Klamath Falls, Oregon. Future charges will be announced by future order or public notice.

(b) *Charges payable after execution of the repayment contract.* Subsequent to the execution of the repayment contract, and in accordance with the terms thereof, water users will pay an annual charge per acre to meet operation and maintenance costs and to repay to the government that portion of the construction costs allocated to Part 2, Tule Lake Division. On the date of issue of this public notice, it is impracticable to determine (1) the total construction cost of Part 2, Tule Lake Division distributary system; (2) the allocation of costs to Part 2, Tule Lake Division of the Klamath Federal Reclamation Project, and (3) the ultimate water-service area of the Division. Accordingly, no exact statement as to the total and per acre

construction charge to be made against the lands opened in this public notice is practicable. When the total construction charge has been determined and allocated by the Secretary of the Interior, and a repayment contract negotiated with the irrigation district, a supplementary notice announcing the total and per acre charges will be issued.

11. *All land to be included in irrigation district.* Each water rental application for land covered by this public notice shall be made on Form 7-289 and the following clause shall be inserted at the bottom of said form:

I agree to the inclusion of my land in an irrigation district and I agree also to participate in the organization of an irrigation district at the earliest practicable date.

12. *Reservation of rights-of-way for county, state, and Federal highways and access roads.* Rights-of-way are reserved for county, state and Federal highways and access roads to the farm units shown on said plats along section lines and other lines shown in red on the farm plats.

13. *Reservation of rights-of-way for public-owned utilities.* Rights-of-way are reserved for government-owned telephone, electric transmission, water and sewer lines, and water treating and pumping plants, as now constructed, and the Secretary of the Interior reserves the right to locate such other government-owned facilities over and across the farm units above described as hereafter, in his opinion, may be necessary for the proper construction, operation, and maintenance of the said project.

14. *Effect of relinquishment.* In the event that any entry of public land made hereunder shall be relinquished at any time prior to actual residence upon the land by the entryman for not less than one year, the land so relinquished shall not be subject to entry for a period of 60 days after the filing and notation of the relinquishment in the District Land Office. Applications conforming to the requirements of this public notice may be filed for a period of 15 days after the expiration of said 60-day period. Such applications will be considered and processed and awards made pursuant to the provisions of paragraphs 7 and 9 of this public notice.

15. *Waiver of mineral rights.* All homestead entries for the above-described farm units will be subject to the laws of the United States governing mineral land, and all homestead applicants under this notice must waive the right to the mineral content of the land, if required to do so by the Bureau of Land Management; otherwise the homestead applications will be rejected or the homestead entry or entries canceled.

16. *Flood hazard.* The lands to be entered are reclaimed lands lying in the former bed of Tule Lake and may be subject to flooding and inundation during extremely wet years. The Bureau of Reclamation is now engaged in the construction of additional works which, when completed, will provide reasonable flood protection. sponsibility for damage to persons or property caused by such flooding.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1627]

COLUMBIA GAS & ELECTRIC CORP. AND MANUFACTURERS LIGHT AND HEAT CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pennsylvania, on the 16th day of October 1947.

Columbia Gas & Electric Corporation ("Columbia") a registered holding company, and its subsidiary, The Manufacturers Light and Heat Company ("Manufacturers"), having filed a joint application, pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (b), 9 and 10 thereof, with respect to the following transaction:

Manufacturers proposes to issue and sell to Columbia \$6,000,000 principal amount of 3¼% instalment promissory notes, such notes to be unsecured and non-negotiable and will be due in equal annual instalments on August 15 in each of the years 1950 to 1974, inclusive. The proceeds of such sale are to be used for the purpose of financing a major portion of the expense of an over-all construction program initiated in 1946, estimated to require an aggregate of \$9,000,000 through 1947. Of this amount, \$1,000,000 was obtained from the issuance and sale of notes in December 1946 (see Holding Company Act Release No. 7062). In this connection, the Pennsylvania Public Utility Commission, by order dated December 9, 1946, authorized the issuance of an aggregate of \$7,000,000 principal amount of notes as described above, subject to a stipulation that 20 days prior to the issuance of any such notes notice would be given to that commission, such notice to include information concerning the construction program. Applicants state that notification of the proposed issuance and sale of the \$6,000,000 principal amount of 3¼% notes was filed with the Pennsylvania Public Utility Commission on September 17, 1947, and that the twenty-day notification period provided by the security certificate has now expired without further action by the Pennsylvania Public Utility Commission.

Said joint application having been filed on September 17, 1947, notice of such filing having been duly given in the manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said joint application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interests of investors and consumers that the joint application be granted:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that

the aforesaid joint application be, and the same hereby is, granted forthwith.

By the Commission.
